When you came in my life,
I saw seven kinds of light,
I saw all words turn to sun and rain,
When you cam, when you came.
Why do sleepy eyes make all things
Live again every day
In my life, when you came in my life
When you came in my door,
I saw angels come before.
I had never sung a love song,
Til you came, til you came.
Why do sleeping eyes make all things
Live again every day
In my life when you came, in my life
I lay on my back and I look at the sky
And the sun refused to shine...
When you came in my life,
I saw windows out of night
I saw sidewalks turn to precious stone,
When you came, when you came
I wonder how do sleeping eyes
See empty full again every day,
In my life when you came, in my life
When you came... in my life
