Bro. Korn, English lyric Ralph McCarthy)

* Olioliolio Yaliyalialia

Let's shake this city to the ground

Let's get off Olioliolio Yaliyalialia

Let's turn this crazy world around

* Repeat

We've been slavin' from 9 to 5

For the sake of some funky machine

Tonight we just want to feel alive

If we still can feel anything

** Won't be long, won't be long

Till the power's back where it should be

Won't be long, won't be long

Only five billion people to set free

*** Shake your moneymaker

That's what God gave it to you for

Abu Dhabi to Jamaica

Everyone get out there on the floor

** Repeat

* Repeat

Well they tell you what's wrong is all right

And they claim only war can bring peace

They try to tell you hate will lead you to the light

And that love's just a disease

*** Repeat

** Repeat
