Baby, I want you to be my lady,  
this feeling that I'm feeling it can send a nigga crazy,  
i just want to love you, put nothing above you,  
i'ma do whatever to show you how much I want you.  
Baby, here goes the keys to my mercedes,  
let me take you shopping if you want to you can take it.

#### BRIDGE

Anything you want girl, go on girl, cause this is your  
world and all i want is,  
You on the left, me on the right, both of us together just  
standing side by side, just you and I n I n I n I...  
You on the left, me on the right, both of us together  
every day and night,  
just you and I n I n I n I...

#### CHORUS;

without you i don't see no tomorrow girl you take me so  
high, (hey)  
And i can't get you out of my head cause i'm with you i  
feel so alive.  
Wherever you go baby I'll follow, as long as i can be in  
your life. (Hey)  
And i can't get you out of my head cause when I'm with  
you i feel so alive.

You ain't never gotta worry about me leaving,  
I ain't going anywhere baby girl believe me.  
Feels like I'm dreamin when I ain't even sleepin, feels  
like I'm talkin when I'm not speakin.  
So far gone that I'm livin where the stars at,  
if that ain't love, baby tell me what you call that.

Girl I hope that you can see that it's from my heart and girl I hope that you can feel that.

Baby and with all this lovin, kissin and hugin, this is how you make me feel.
