Missin you
Missin you

I remember the time you make me smile
I remember the things that you and I
I remember the way you make me feel
I remember the times that couldn't be real
Oh I am around that
You and I were around this
Now I'm logging to see you
Girl don't move on
Cause I need you to hold on

Tell me what can I do

I guess I am missin you
I guess I'll be missin you

I remember the last thing that we said
I remember it was a moment I wouldn't forget
I remember I can't seem to get you out of my head
