Money right, dad straight, mama living hell a good,
Money right, dad straight, mama living hell a good,
Money right, dad straight, mama living hell a good,
Niggaz hating cause we doing everything they never
could,

I'm living a good life, none of them could ruin it,
Shout out to the fact that we still standing after Losing
It,
Half of the label staff expected us to quit,
Cause Jimmy cares only 'bout pop music,
Rock City ain't really with all that bullshit,

Thats exactlly why we left Interscope now,

We 'bout to set it off and get it popping,
While every other labels at our front door knocking,

Another bidding war, fuck nigga trynna stop this,
We coming full speed so ya'll might want to watch it,
I always keep it hot maybe cuz I came from the tropics,
You want it, you need it, don't worry cuz i got it,

Now PTFAO lets make that shit a trending topic,
And when our album drop I bet dem haterz still cop it ,

Let dem muddaskunt know just who we is,
Is Virgin Islands massive till dey put me in my grave,
As you could see meh boi a all da hard work pays,

The matto dat we living is a three word phrase (no off
da a ays)

Fresher than a mourge even when i dont bathe,
allready kno jus now a V.I man a have a rate
I'm the type of nigga who dem falli fasy dont faze
(u kno say dat, u kno say da we come jus fi fuck up de
place)

The clock still ticking,
Damn rite im off of in dis mufucker still spittin'
Akon dont wana let us go but i ain't even tripping,

We'll put a reggae album out and still make a killing,

No he didn't yes i mufucking did,

And i ain't dissing Kon he still my mufucking nig,
Bu bu bu damn, can u let a mufucker live,
See yall must not understand who this mufucker is,
Grown man shit got no time for these mufucking kids,

I'm higher than some refa,
I'm hobby cuz im fly from my neck down 2 my
sneakers,
I'm in the front row ya'll sitting way up in the blechas
And that's the reason why dem muddaskunt can't see
us.

No ones fucking with me is why i dont even really
feature,
Rock City not pretty, keep that shit beating through your
speakers,
I'm dreaming while I'm awake cuz I don't never sleep
so i'll be living a dream homie I see ya when I see ya.
(No Off Days)
