Feel like the table is turning  
no longer will i be on my own  
can't wait to get up in the morning  
cuz i know that i'll be next to you  
you came now my hearts unbroken  
girl u keep me on a natural high  
no longer will i be hoping  
cuz baby you brought my dreams to life.

So when the rain falls on the dark clouds  
they don't fall on me  
even on the bad days when the sky is grey  
you're all i need  
So i think about us  
about us i think about us

I think about me loving you  
and you loving me  
so where ever you are  
baby thats where i wanne be  
so i think about us

It's me and you being together  
after that nothing matters no  
life became so much better  
ever since you held me in your arms  
cuz i go to the moon and further  
if i know thats where u were gone be  
as long as you be my lover  
and you promise that you will never leave

so when the rain falls on the dark clouds  
it dont fall on me  
and even on the bad days when sky is grey  
you're all i need  
So i think about us  
about us i think about us

I think about me loving you  
and you loving me  
so where ever you are

baby thats where i wanne be  
so i think about us

i think about all what we've shared  
and i think about when you are here for me  
i think about times when we made love  
baby youre oh i think about  
where we are  
So i think about us think about us

I think about me loving you  
and you loving me  
so where ever you are  
baby thats where i wanne be  
so i think about us

I think about me loving you  
and you loving me  
so where ever you are  
baby thats where i wanne be  
so i think about us
