ft. Verse Simmonds

.. houzin and ghettos  
tounkey and round the filed.  
St. Croix and St. John  
Synchronizing .. tell me how you feel  
You need to understand â€¦ the country  
Where would I be without you  
I need you forever I can't let you go  
Now what would I do without you  
You rise me that's how I love you so  
I am telling you the true  
There is no other place in the world  
I would call my home this ain't nothing new  
In case you didn't know it  
V I tripping pushing up in the sky  
If you come from the island let me see your ..  
V I tripping pushing up in the sky  
â€¦ until we die

.. through my music we will always live  
.. very necessary holler if you hear me  
Where would I be without you  
I need you forever I can't let you go  
Now what would I do without you  
You rise me that's how I love you so  
I am telling you the true  
There is no other place in the world  
I would call my home this ain't nothing new  
In case you didn't know it  
V I tripping pushing up in the sky  
If you come from the island let me see your ..  
V I tripping pushing up in the sky  
â€¦ until we die
