### "Get Down"

Visit "[Get Down](#)" on MotoLyrics.com

Last chance to get rich off this shit that makes me sick  
You think you've seen it all, yeah you haven't seen shit  
you moron

Come on, you better look behind your back  
You better turn around, you better turn around, you  
better turn around  
You better say who's fault now, who's fault now, who's  
fault  
You better get down before the heat starts to burn and  
make you melt

Last chance to get fucked off this shit that we can't  
trust  
You think you've seen it all, yeah you're gonna see it  
again you moron

You better look behind your back  
You better turn around, you better turn around, you  
better turn around  
You better say who's fault now, who's fault now, who's  
fault  
you better get down before the heat starts to burn and  
make you melt
