Oh I wanna go, yeah we gotta leave it right now
Opportunity knocks so let's barge on in
Oh I wanna beat the door down just to look inside
Our vital signs look good but our chances are slim, way
grim

So I killed it anyway, I killed it anyway
Stand back, look proud and tall
Be afraid of what you see and not attack
I'm not invisible...

Oh I gotta go, yeah we gotta leave it right now
When opportunity knocks let's barge on in
The sour truths and the vengeance sweet
Memory is full but nothing to keep
So pull back those dirty sheets
Let's see that wet spot now

So I killed it anyway, I killed it anyway
Stand back, look proud and tall
Be afraid of what you see and not attack
I'm not invisible...
