"Sun On Water"

All through the night we were battered by storms in the
Darkness
But at dawn the wind dropped away and we sighted the
land
Suddenly there, a break in the cloud, like the coming of
God in the world
In diamonds of sun on the water
Diamonds of sun on the water

Somewhere beneath the noise of our lives there is
Stillness
In points of light from the fireflies to the stars
Where arm in arm, come Abel and Cain, walking down
to the
Sea
To gaze at the sun on the water
Just to gaze at the sun on the water

Once all our paths led us onwards
Now they are guiding us home
From the courts of the kings, we are returning
One by one

Now from desks in the cities with faraway eyes
All staring out over the roofs
We're dreaming of sun on the water
Dreaming of sun on the water
