Verse 1

I see
The trees and all
The satellites

And I keep
On feeling these
Attention bites

And I wish
You knew I wasn't
Meant for this

But I guess
I never really
Made the list

She said

Pre-chorus 1
I hope you stay
I'll carve your name
I'll save your spot
Forget me now

Please climb back in
We'll try again
These tired eyes
Won't say goodbye

And I know
And I know
We should forget about it

Chorus
Forget me
Forget me
Forget these songs that we made
Forget the scars that we gave
Forever will have to wait
Forget me Forget me

Verse 2

I see
The red its falling
Through the sky

And I keep
Picturing you
And me alive

But I know
Intentions can be
Suicide

So lets go
And make this painless
Name the lies

You gave

Pre-chorus 2
Why dont you stay
Ill carve your name
Into this spot
Where sins forgot

And we can hide
Until the time
When stars collide
Through you and I

And I know
And I know
We should forget about it

Chorus
Forget me
Forget me
Forget these songs that we made
Forget the scars that we gave
Forever will have to wait
Forget me Forget me

Bridge
The timing of your text
Was worse than my blank expression

I have but one request
Be the victim of my aggression

Chorus

Forget me
Forget me
Forget these songs that we made
Forget the scars that we gave
Forever will have to wait
Forget me Forget me
