"Get Down"

Visit "Get Down" on MotoLyrics.com

Last chance to get rich off this shit
That makes me sick
You think you've seen it all, yeah
You haven't seen shit, you moron

Come on, you better look behind your back
You better turn around, you better turn around, you
better turn around
You better say, "Who's fault now, who's fault now,
who's fault?"
You better get down before the heat starts to burn and
make you melt

Last chance to get fucked off this shit
That we can't trust
You think you've seen it all, yeah
You're gonna see it again you moron

You better look behind your back
You better turn around, you better turn around, you
better turn around
You better say, "Who's fault now, who's fault now,
who's fault?"
You better get down before the heat starts to burn and
make you melt
