A teenage crime wave combats the sins of Rome
The sting of illusion finally finds a home
Back to the body count of the flaming maniacs
Who's the avenger now?

If hell's to roam, then we got hell to pave
If we want something more, well, we've got something
to make
If hell's to roam then we got hell to pave
There's no need to panic, it's a panic scam
It's a panic scam, a panic scam, a panic scam

Laugh at the jackals, behead the Mongols
So we can run wild

If hell's to roam, then we got hell to pave
If we want something more, well, we've got something
to make
If hell's to roam then we got hell to pave
There's no need to panic, it's a panic scam
It's a panic scam, a panic scam, a panic scam
