#### Verse 1

Everyone in my house is wrong  
Everyone in my house thinks they are so strong

Everyone in my school is fake  
Everyone in my school is a big mistake

#### Pre-chorus 1

And I know how it feels  
When they give you eyes

And I know how it feels  
When they tell you to compromise

And I know how it feels  
To be alone

Drowning in bad advice  
From everyone you know

#### Chorus

Its your life Theyre just viewing  
You know exactly what youre doing  
So dont let them try and change you plans for you

They will try to get you down  
As they spread all their lies around  
In the end they will be looking up to you

#### Verse 2

Everyone in my house is mistaken  
Everyone in my house gets under my skin

Everyone in my school is lame  
Everyone in my school acts all the same

#### Pre-chorus 2

And I know how it feels  
To be shot down

And I know how it feels

To wish you were underground

And I know how it feels  
To be alone

Drowning in bad advice  
From everyone you know

Chorus

Its your life Theyre just viewing  
You know exactly what youre doing  
So dont let them try and change you plans for you

They will try to get you down  
As they spread all their lies around  
In the end they will be looking up to you  
(Repeat)

Bridge (outro)

Im sorry but I won stop I wont stop for you  
(Repeat)
