Oh yeahoh yeah
I don't know you, not at all
I took one look at you, and I want to know it all
What you do, where you go
Am I on your mind, or is there someone else
Are you calm, do you care if it's there,
Or is there something wrong with your health?

Ask me some questions, I know you're shy
And that's what makes me think, you're my type of guy.

Just talk to me, just that extra little bit longer.
Yeah, yeah, yeah,
And if it don't kill you, I know it can make you stronger.
Yeah, yeah, yeah.

I know you're shy,
And I wish you were my guy.

I wanna be the one now darlin',
So let's get it on,
Well let's start something.
I wanna be, I wanna be,
I wanna be your everything.

I wanna be the one now darlin',
So let's get it on,
Well let's start something.
I wanna be, I wanna be,
I wanna be your everything.

All of this time, I've been sitting back,
Lookin' at you baby, to see what's in your head,
And I don't know you, or what's inside,
I've gotta know, yes or no, that you're my type of guy.

Just talk to me, just that extra little bit longer.
Yeah, yeah, yeah.
And if it don't kill you, I know it can make you stronger.
Yeah, yeah, yeah.

I wanna be the one now darlin',
So let's get it on,
Well let's start something.
I wanna be, I wanna be,
I wanna be your everything.

I wanna be the one now darlin',
So let's get it on,
Well let's start something.
I wanna be, I wanna be,
I wanna be your everything.

I wanna be the one now darlin',
So let's get it on,
Well let's start something,
I wanna be, I wanna be,
I wanna be your everything.

I wanna be the one now darlin',
So let's get it on,
Well let's start something.
I wanna be, I wanna be,
I wanna be your everything.

Yeah, yeah,
I wanna be,
I wanna be your everything

YeahOhYeah, yeah, yeah

I just wanna be your everything
I just wanna be your everything
