Ever since I was a little girl

Ever since I took my first step and said my first hello

I've been dancing I've been singing

I've been hoping I've been dreaming

I've been praying for a chance to show

Show the world

I can be

Just like the stars on TV

Here I am, here I am, here I am

Now isn't it crazy, crazy, isn't it wild

Here I am, here I am, here I am

Now isn't it crazy, crazy

Crazy, but here I am

Like a little voice inside my heart

Talkin' from the very start

Tellin' me which way to go

Always try, don't give up

If you want it, never stop

Take your time if you want to show

Show the world

You can be

Just like the stars on TV

Here I am, here I am, here I am

Now isn't it crazy, crazy, isn't it wild

Here I am, here I am, here I am

Now isn't it crazy, crazy

Crazy, but here I am

Through the fire

through the rain

Isn't it a little insane

Here I am
