

A Rocket To The Moon "First Kiss"

I pulled up to a drive
I tightened up my tie
And I need to make her wait
No sleep from the night before
Her dad answers the front door
And already knows my name

I stand in fear
As she gets near
That everything's okay
I hope this feeling never goes away

I never thought
I'd find a love like this
There's no need
To hide that feeling we get
Whenever we touch
We can't resist
We go back to our first day
Our first kiss

Her face lit by a movie screen
She's leanin' into me
And time seems to slip away
Later on we take a walk and
Good thing she likes to talk
'Cause I can't think of what to say

She looks at me
And she can see
The chance I wanna take
She moves in close
And take my breath away

And every time feels like a first time
Looking back to what we had
It never went away
As she makes me feel it every day
