(Intro)

K-Boy, Kendrick Lamar  
TB ain't shit yap  
Ya dig?

(Hook)

With no struggle, there's no progress  
I make a feel in the hood to the projects  
And I'm riding down the path of the success  
You know them haters in them straps  
But I took that by any means necessary nigga, I'mma  
get it  
Fall down and get up, guaranteed I ain't quitting  
So victory's the only outcome  
Heart of a lion with the mind of Malcolm, yeah

(Verse)

They say great minds think alike  
Well I'ma think like Malcolm and Martin  
Before I even think the right  
I'm trying to have more good days than evil nights  
No matter what they say my people ain't got equal  
rights  
Hope we get wises and we better hit the visuals  
But all we have is funerals and candle light visuals  
And gang banging and pimping is like a ritual  
You lying ass rappers, I'm telling you obituary  
Glasses say I can't get that so I'm thinking more  
I need answers so I'm knocking at the preacher's door  
Told me never look back so I proceed forward  
I'm the hope for these niggers in the street sad war  
Some niggers pulled it for me and tried to test my  
Shot my car up, I wasn't thinking with my best mind  
But my faith in God became on Teflon  
That's why I cherish every moment in the waste time

(Hook)

With no struggle, there's no progress  
I make a feel in the hood to the projects

And I'm riding down the path of the success  
You know them haters in them straps  
But I took that by any means necessary nigga, I'mma  
get it  
Fall down and get up, guaranteed I ain't quitting  
So victory's the only outcome  
Heart of a lion with the mind of Malcolm, yeah

(Verse)

I said they trying to cap some G shit some more  
Flow china white like a sheep in the snow  
I go deep as the Bible I can debate with the pope  
And you rappers go down and he go like a sky on the  
slope  
I be on a boat with pappy  
But I ain't trying to cop no work  
I'm trying to cop me the boat and some more property  
I told Rock you gotta be more than just a commodity  
Make the house name and entity to infinity  
They want me off the juice, no grenadier  
And stop from thinking presidential like this guy that  
brings the Kennedy  
after is hot tuck down so the crowd won't witness me  
Now, can somebody locate Mr Shakur?  
And tell these 2 Pacs they 2 shots away from 2 blocks  
Of being neighbors with our all mighty lord  
We put your best material wind and fast forward  
Kendrick signing off, I'm sure your signature's for

(Hook)

With no struggle, there's no progress  
I make a feel in the hood to the projects  
And I'm riding down the path of the success  
You know them haters in them straps
