Turning back ten thousand years it's all a blur where
the taxi's go
Monster man a willing friend Lucy serves the melon
cold
Violent and delicious souls four red trucks dressed
illegally
Mother knows how the bugle blows gonna get caught in
her rug babe

This is not a conclusion
No revolution
Just a little confusion
On where your head has been

Boats made out of paper float dreams made up for the
banan king
Darling crumbs you have lapped freely of devious we
all have been

Violent and delicious souls

This is not a conclusion
No revolution
Just a little confusion
On where your head has been
