"The Happy Worker"

Visit "[The Happy Worker](#)" on MotoLyrics.com

Laughing out the smoke from a factory chimney
marching to the beat of a heart within me
high ho hey ho we're off to work again
bells are ringing we are singing
joyous in our industry

I love my job, he loves his job
pull that lever, start the engine
a pump the water, build the pressure, push the piston,
press the button
pump the water, build the pressure, push the piston,
press the button
it's the perfect job

happy workers, happy workers, yes
happy workers, happy workers

I love my job, he loves his job
pull that lever, start the engine
a pump the water, build the pressure, push the piston,
press the button
pump the water, build the pressure, push the piston,
press the button
pump the water, build the pressure, push the piston,
press the button
it's the perfect job

happy workers, happy workers
happy workers, happy workers

I love my job, oh he loves his job
pull the lever, sister, start the engine
pump, pump the water yeah ooh yeah
press, oh yeah, build the pressure, oh yehs
pump the water, build the pressure, push the button oh
yeah
it's the perfect job

happy workers, happy workers
happy workers, happy workers

I love my job, oh he loves his job
pull the lever, sister, start the engine
pump, pump the water yeah ooh yeah
press, oh yeah, build the pressure, oh yehs
pump the water, build the pressure, push the button oh
yeah
it's the perfect job
