So I want to kill this waitress
she's worked her a year longer than I
If I did it fast you know that's an act of kindness

But I believe in peace
I believe in peace, Bitch
I believe in peace

I want to kill this waitress
I can't believe this violence in mind
and is her power all in her club sandwich

I want to kill this killing wish
they're too many stars and not enough sky
Boys all think she's living kindness
ask a fellow waitress
ask a fellow waitress
