"Life Classes / Life Model"

Visit "[Life Classes / Life Model](#)" on MotoLyrics.com

Bruises from your head to your toe
There are marks all over you
There's no place for you to hide
Since they painted you black and blue
Blue the colour I made your eyes
Charcoat the hair
If I fall down
Don't be surprised
This surveillance was unprepared

I watching over
You every move
Life classes life model
Life lesson due

Show me where to disrobe dear
Where I out of view
Say something good or shut your mouth
This surveillance is overdue

I watching over
You every move
Life classes life model
Life lesson due

And there's no way to hold your head
So hold your head that low
And there's no way to hold your head
So those things just don't show

Now I a Cowboy
Carrying a gun
Life classes / Life model
Life lesson begun
