You said you would you said you would be my escape
But you have slammed that door and thrown away the
key

The only you I really know lies through her teeth
The only way to really tell what lies beneath (Is to)

Scream it out (Scream it out)
Scream it out (Scream it out)
For the world to hear
Scream it loud (Scream it loud)
Scream it loud (Scream it loud)
For my mind can't bare

I'm praying for answers while living in fear
I'm running in circles for you my dear

Let's not pretend let's not pretend we'll be okay
You have proven yourself in every single way
Hell's where you drag my heart through every single
day
I guess this hell is where my heart will have to stay

You made the choice
You sealed our fate
You brought down everything (x3)

Scream it out (Scream it out)
Scream it out (Scream it out)
For the world to hear
Scream it loud (Scream it loud)
Scream it loud (Scream it loud)
For my mind can't bare

I'm praying for answers while living in fear
I'm running in circles for you my dear

Hell is where the heart is (x4)

Scream it out (Scream it out)
Scream it out (Scream it out)

For the world to hear
Scream it loud (Scream it loud)
Scream it loud (Scream it loud)
For my mind can't bare

I'm praying for answers while living in fear
I'm running in circles for you my dear
