You're a tough pill to swallow
But I need my pills to sleep
Darling please don't you follow
As I waltz into the deep

Swallow it, savor it, put you in my veins
Shoot you up, Spit you out, You all taste the same
I can't feel the pain
(you all taste the same)

My heavy eyes have got the best of me (falling)
To a place far from reality
And when I wake from this love induced dream
I pray that I will never fall back to sleep

You're a tough pill to swallow
But I need my pills to sleep
Darling please don't you follow
As I waltz into the deep

I'm a hard act to follow
But at least we can agree
Darling i've left you hollow
Like the drugs inside of me

Swallow it, savor it, put you in my veins
Shoot you up, Spit you out, You all taste the same
I can't feel the pain
(you all taste the same)

My heavy eyes have got the best of me (falling)
To a place far from reality
And when I wake from this love induced dream
I pray that I will never fall back to sleep

Like the drugs inside of me
cut me open, let it all out
cause i just can't help myself
cut us open, let it all out
cause we just cant stop ourselves
I can't stop myself

My heavy eyes have got the best of me (falling)
To a place far from reality
And when I wake from this love induced dream
I pray that I will never fall back to sleep (x2)

I can't stop myself
