Of course I can be happy too
I'll do it if it pleases you
I'll turn the darkness into light
And bring a brightness in your night
I'll tell you it will be alright
If that's what pleases you

I'll chase away the darkest clouds
And pacify the angry crowd
I'll give you all the laws allow
I'll give you all the laws allow
If that's what pleases you

Of course I can be cheerful too
I'll do it if it pleases you
I'll chase away the chilling rain
And soothe you when you're feeling pain
I'll titillate your aching brain
If that's what pleases you

I'll pull a rabbit from a hat
I'll put the skin back on the cat
I'll make an angel from a brat
I'll make an angel from a brat
If that's what pleases you

Of course I can be merry too
I'll do it if it pleases you
I'll step in the same river twice
I'll liberate the frightened mice
I'll pay the piper any price
If that's what pleases you

I'll turn the booing into cheers
I'll free you from your darkest fears
I'll do it for a thousand years
I'll do it for a thousand years
If that's what pleases you

Of course I can be goofy too
I'll do it if it pleases you

I'll stand all logic on its head
I'll jump around in mother's bed
I'll bring to life the quick and dead
If that's what pleases you

I'll twist my mouth and bug my eyes
I'll bring it back when all hope dies
And find the truth in other's lies
And find the truth in other's lies
If that's what pleases you

Of course I can be happy too
I know the sky above is blue
And even if my words aren't true
I'll say them if it pleases you
