"Take It Or Leave It"

You can take all your clothes from the closet
You can take all your things from the shelves
But if you want to know should it stay or should it go
You can take it or leave it, my love

You ask me if this has been worth it
You wonder if anything lasts
But if you need a sign I will offer you mine
You can take it or leave it, my love

You can take it or leave it you never will know
You can toss it or keep it once again
You can hold it or fold it or just let it go
You can take it or leave it, my love

Don't mistake what it is that I'm saying
Don't interpret too much in each word
You can try it on size if you think that it's wise
You can take it or leave it, my love

You can take it or leave it you never will know
You can toss it or keep it once again
You can hold it or fold it or just let it go
You can take it or leave it, my love

Every day we get up and we wonder
What on earth we have done with our lives
Between heaven and earth there is just so much truth
You can take it or leave it, my love

Every day we get up and we wonder
What on earth we have done with our lives
Between heaven and earth there is just so much truth
You can take it or leave it, my love
