

## Automatic, The "Responsible Citizen"

Visit "[Responsible Citizen](#)" on [MotoLyrics.com](http://MotoLyrics.com)

I'm sick of Government warnings  
That tell me to 'Watch my intake'  
I know my limits and I know  
That everyone makes mistakes  
And I'll tell you I'm fine  
Tell you I'm fine  
I'll tell you when I've had enough  
I can't take it too hard  
I want every last drop going to my head

I'm going out of my way to go out of my  
Mind going out of my way  
I'm going out of my way to go out of my  
Mind going out of my way

I don't want trouble or bad times  
I'm a responsible citizen  
But now and then, some people spoil it for  
Everybody else  
Some people should not partake  
Sometimes it's a big mistake  
But I have no say, you know it's in control of  
In control of myself

I'm going out of my way to go out of my  
Mind going out of my way  
I'm going out of my way to go out of my  
Mind going out of my way  
And I'll tell you I'm fine  
Tell you I'm fine  
I'll tell you when I've had enough  
I can't take it too hard  
I want every last drop going to my head

So far  
Too far gone  
So far  
Too far gone

So much better than this morning  
I feel so much better than this morning

I feel so much better than this morning  
Than this morning

It's in control of my  
In control of myself  
It's in control of my  
In control of myself  
It's in control of my  
In control of myself  
It's in control of my  
In control of myself

I'm going out of my way to go out of my  
Mind going out of my way  
I'm going out of my way to go out of my  
Mind going out of my way  
And I'll tell you I'm fine  
Tell you I'm fine  
I'll tell you when I've had enough  
I can't take it too hard  
I want every last drop going to my head
