When Jasper left he left for good  
Said I'm not staying here I'll be left for dead  
And I believed him  
Down the long gravel road to the house with the dogs  
Living with zombies  
It's the last place I want to stay  
So I jumped on my bike and I sped towards life  
Pay me up man  
I'm not just a free show you know  
Big freak's in town  
I'm not just a free show  
Should have followed him to Portland but I got lost on  
the way  
In girls and drinkin and my journal's empty pages  
And the way this city never ages  
Tracing the lines between my hands and hers  
There was everything and everything was worth  
leaving  
And everything was worse than leaving  
Take me back please  
I am just a child alone you know  
Take me in please  
I am losing my fight for home
