She's up there waiting below
You'll know it you'll hear the show
How many years must be so tired of the haunting
Nobody noticed her
Though some say they felt her around
Just a cold air
Mira Williams
She died young, 21
Living here at 1610 Sycamore
Everything she had is no more
Nobody noticed her
I said I felt her around
Just a cold air
Could nobody feel her
She's screamin' the winds down my back
I can't go upstairs
I can't stay down here
Mira she's callin'
Is anyone listening
Can anybody hear me
Mira she's needin' my help tonight
Gonna make it all right
