Well take a look at Bobby maybe he was bouncing to do
too many pills
Now he's pissing on the ground see well I looks too too
dangerous
Maybe by myself but we'll do it if there three of us

Hit list dick clit your on mine
Wait reverse that whores adore young guys
This is high school prom shouldn't we dance
That just wouldn't be cool while Jane shooting up the
school

You can't say that high school made me crazy
You can't save me high school made me crazy

Hey Nancy dress is cut up and you cant see
Blatant prostitution she's been running from the
backseat
So Jane walks up and aims at Nancy Click
Nancy's brain flies through the room
And lands smack dab on Jenny's lip

You can't say that high school made me crazy
You can't save me high school made me crazy

I hear the bell through these empty halls. (empty halls)

Words, words, words are on my locker
Curse, curse, curse I'm cursing softly
And I was only a normal boy
You can't say that high school made me crazy
You can't save me high school made me crazy
You can't say that high school made me crazy
You can't blame me high school made me crazy
