Well down in the middle of the old barn yard  
Dad is sittin on the porch johnnys racin the car  
Goin over the hill dirt flyin behind  
Ridin shot gun nick is goin on nine

Yeah and kaits in the kitchen helpin her mom  
And Chris is in town workin at the shop  
Don't got a song to write but a point to prove  
You can do anything the hoefers do

Well you can write a song dive off a bridge  
You can ride your horse to school  
Saddle it up act real tough  
Skip school to jump in the pool  
Bottoms up and glasses down break all the rules  
Get chased by the cops party lots  
Play it like em hoefers do

Well they don't give a darn if they crash a bar  
Bunch of rednecks truckin around a farm  
But they know how to live and they all get by  
Just don't make em mad don't cross that line

Cause they got hearts like fire and eyes like ice  
And a pocket full of stolen sunshine  
But we had good times and the time of my life  
Was back when it was hoefer time

Chorus

Yes they know how t love and they love each other  
Sometimes it's hard to see but I know  
That it takes some time and it takes a smile  
Before they come back home  
Home sweet home

Chorus

Play it like the Hoefer's do yeehoo
