I see a wound deep inside
Someone who miss in your life
One day you smile
The next you blow out
Come with me let's shine

If our story has to end
I don't know why
And if I had to fly away
I don't know how

Love me or leave me
Till I die
Confide me all this will be
My tears are down on my feet
Love me or leave me

(Na na na...)

This daydream is a wire
Cut by you tonight
You and me forever
A certainty that dies

Prechorus
Chorus

If your anger leads you
To make me dive
To fool myself with another lie
Goodbye, goodbye
We won't be as one

Chorus

Love me or leave me
