So much time to analyse my dreams  
Latest news has got no meaning  
My way to get a way  
My radiophone, my radiophone

I'm black & blue in the depths of my heart  
It keeps me away from you every night  
To tell you right now  
By the radiophone, by the radiophone

Your lipstick's bright & so delirious  
Oh come along children and play with us  
Stop destroying my fucking work  
All this is my life and you're pretentious  
Oh come along children and play with us  
Stop destroying my fucking work

Follow the leader the one who knows them all  
It's now or never  
I must go home  
I get out of this hole  
With my radiophone, my radiophone

Take my soul and you'll feel better  
I am a young man and you're a liar  
I'll speak louder  
With my radiophone, my radiophone

Chorus  
Bridge  
Chorus
