"Against Me"

I don't know if I'm right or wrong
But I know that I'm worse on my own
Nothing else can make me satisfied
Nothing else can replace the space you've made

These sights won't blur
Until I make it sure
And I won't see
How you wanted me
Or what you wanted me to be

Now tell me you were lying
Nothing worth for crying
But I don't want to hear
You're against me
You're against me now
You're against me

I don't feel the pain, I'm being numb
And I know soon I won't feel anything
Nothing else can make me any better
Nothing else can cure what you've left me

These sights won't blur
Until I make it sure
And I won't see
How you wanted me
Or what you wanted me to be

I don't feel the pain
Am I really sane
Confused with the truth and false
Only know you're
Against me
You're against me
You're against me now
You're against me

Against me now
Whatever you want just take it
Don't know why you needed to fake it

I'll never know why you're against me now
Against me now (whoa)
