### "Are You Nervous?"

Now you know that it's all your fault  
How are you doing with it?  
Hey, are you nervous?  
Everything that you've ever known will go up in flames  
Tell me, are you nervous?

And the sky will fall down on you and the world still  
turns around, round, round.  
And the sky will fall down on you as your life goes on  
down, down, down.

Everything that you've ever done will come back to  
haunt  
Tell me, are you nervous?  
Now you know that it is for sure  
How are you taking it?  
Do you deserve this?

And the sky will fall down on you and the world still  
turns around, round, round  
And the sky will fall down on you and your life goes on  
down, down, down
