I always wanted to hide my feet of clay
They never say much
How can I choose what's right or wrong
I get what I deserve, so this is what I got
Let me go, I know where I can go
So leave me alone, I'll show you the straight low

(Don't be shocked, seeing my thought
Never mind about the breathe I caught
It's how I see things everything around me
They need to be something, but they don't seem to be
Unreal, undefined, even so I'll let this in my life
Nothing to do, standing with you, holding my knife)

This is always what I wanted but I won't get it
I miss it, I hate it but I miss it
Seems so wrong, but it's true, never changes
It's true, I got what I deserved and this is what I got
Might not be a true treasure but seems like it's my
pleasure
You are what I got

(Don't be shocked, seeing my thought
Never mind about the breathe I caught
It's how I see things everything around me
They need to be something, but they don't seem to be
Unreal, undefined, even so I'll let this in my life
Nothing to do, standing with you, holding my knife)

You are what I got
The only thing I've got
Something I feel of
You're the only thing I've got
I hate you, yet I miss you
For throwing away
(X3)

Oh, yeah
It seemed so far away
So distant, but in instant I got you
He must gave me a chance

Chance, once more
To get you again, get what I deserve
It might not be you, but you were what I got
