### "Cold As Us"

Visit "[Cold As Us](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Can't you see  
We've become so cold  
Making it under more, everytime  
And we can't be  
Any colder now  
Loosing the sences, seperated by fences

If you have the time to get us fixed  
Any better just to make up time  
Frosting in December, but never worse  
Cold as us, cold as them  
Cold as the wind

Don't you know  
Love's become so old  
Making it undercover, always  
And our pride is low  
We can't be colder  
Loosing our words, empty conversations

If you have the time to get us fixed  
Any better just to make up time  
Frosting in December, but never worse  
Cold as us, cold as them  
Cold as the wind
