With a place to find my grace
Took your chance, started to dance with death
But you won't try to hold your hands up high
You didn't know whether you were to laugh or cry
We stayed up so late, just to claim our hate
We needed to waste, the time to start
I didn't want to start, I need to end in my heart
I'm not going to go long, my path is wrong, wrong,
wrong!

I start to lie in the smiles I make
You said never say die, but I don't stop to fake
Then you said to beat it, to get away from here
I couldn't hold you, love was never my real career
The sky isn't blue, whenever, since you've disappeared

You won't come back, you swore to the sky
I met a black cat, it made a prophecy that I was gonna'
cry
It didn't, I told myself, but the more I think
The more I think it puts me in tears, and I need to blink
Just to hide them, just to hide them
Let me say one thing when we meet again
One day you'll re-sight, give'em ghosts kid

I try so hard not to think of what's behind
We tried so hard, but I gave up my mind
Now it's just a weight to carry day and night
Trust me for once, cause' it used to be right
They say we weren't true, whatever, if you'd like it that
way

With a place to find my grace
But you won't come into my pace
I hear the back beat but it won't come in front
I know where it leads, but I cannot hold on
I didn't know if I needed to laugh or cry
I just begged for another time before I die
I erase my words, you're not an angel, you're a devil
In a different world, now we're in different levels
And I can't go so long, my path is wrong, wrong,

wrong!

You won't come back, you swore to the sky
I met a black cat, it made a prophecy that I was gonna'
cry
It didn't, I told myself, but the more I think
The more I think it puts me in tears, and I need to blink
Just to hide them, just to hide them
Let me say one thing when we meet again
One day you'll re-sight, give'em ghosts kid
I'll show you right now, what a ghost is
Ha!
