Featuring Dominic

(Intro)

Hand clap to it  
Shit feel right  
Hey, yea yea

(Verse)

It's hard to see the light when you in the dark  
Got me digging in your chest tryina find your heart  
Lookin for your love, don't know where to start  
I find myself, by myself well often enough  
Staring at your pictures in my phone  
Been together 5 years, hard to picture us alone  
You was at my shows, everyone front row  
Smiling in my face, when I was rappin I could see your glow  
Your diamonds were glistenin on your skin  
The light was right above you I can tell you came to win  
Hair looking perfect like you work at a saloon  
Tan lookin like you got it on the beaches in Milan  
If it was up to me, I'd be your only lover girl  
You the real definition of a cover girl  
What you need, whatever, I got it covered girl  
Hit the blunt and let me take you to another world

(Chorus)

Baby if you'd just let go,  
Change your chapter, turn the page  
I'll take you to a place I know  
Far from here,  
Well beyond inside my ship  
Where no one watching, watching us

(Verse)

I know he don't treat you like this  
He just treat you like shit,  
He don't eat you like this  
Legs spread, dive in, head first  
On my jay holiday, I'm putting you the very first  
The lotion on your back got you feeling right

You just really wanna fuck  
You don't really wanna fight  
You don't wanna think about it, out of mind, out of sight  
You just had a long day, you just took a long flight  
You told me that your friends don't approve of me  
But I bet they didn't tell you what they do to me  
Usually my jewelry got them confusing me  
Game talk foolery, this is nothing new to me  
I thought about it once or twice, but I was drunk as hell  
Is it love or is it lust, only time can tell  
I'm laying here just really tryina understand  
How this love can just kill a man, damn

(Chorus)

Baby if you'd just let go,  
Change your chapter, turn the page  
I'll take you to a place I know  
Far from here,  
Well beyond inside my ship  
Where no one watching, watching us
