I remember when I held you in my arms
So long as your eyes will rest in mine
All I have is for you... for you
Your eyes will rest in mine
Your heart will open mine

Your eyes will cary me through these nights
'as your heart will rest mine'
Your heart will carry me forever
'As your heart will open mine'

For so long I felt alone,
emptyness filled my mind
trying to get your weary heart
All I have is for you... for you

Your eyes will rest in mine
Your heart will open mine

Your eyes will cary me through these nights
'as your heart will rest mine'
Your heart will carry me forever
'As your heart will open mine'

Your eyes, 'your eyes'. Your heart, 'your heart' will rest
in mine
Your eyes, 'your eyes'. Your heart, 'your heart' will rest
in mine
And if I decide to leave this place
Would you still know my name

(x2)Your eyes will cary me through these nights
'as your heart will rest mine'
Your heart will carry me forever
'As your heart will open mine'

your eyes, your heart, your eyes
