Don't take away my shine; my shine is all I have,
My heat, my love, my beauty and my glad,
It worries me that sometimes that I want love,
I live a life of sad,

Don't take away my shine; my shine is all I have,
My heat, my love, my beauty and my glad,
It worries me that sometimes that I want love,
I live a life of sad,

Do what you've gotta do baby,
Say what you've gotta say,
Go where you've gotta go baby,
I want stand in your way,

Coz I don't wanna see you cry,
No I don't wanna tell these lies,
I don't wanna say goodbye,
Look into my bloodshot eyes,

There's nothing left of me,
There's nothing left of you,
There's nothing left of us,
It's safe to say that we're through,

You can take my heart,
You can take my pride,
But baby please don't take,
All of my shine...

Don't take away my shine; my shine is all I have,
My heat, my love, my beauty and my glad,
It worries me that sometimes that I want love,
I live a life of sad

I live a life of 'sad',
I've been through good and bad,
Think of the bad things and the good things that I
could've had,
I'm sick of all these tears,
Even after all these years,

You can go I'll set you free; leave behind all of your
fears,
(Nothing's gonna stop you)
Be on your way,
(Nothing's gonna stop you)
What you gotta say?
(Nothing's gonna stop you)
It can be any day
That's okay

But baby you can take my heart,
You can my pride,
Baby please don't take all of my shine

Don't take away my shine; my shine is all I have,
My heat, my love, my beauty and my glad,
It worries me that sometimes that I want love,
I live a life of sad,

Don't take away my shine; my shine is all I have,
My heat, my love, my beauty and my glad,
It worries me that sometimes that I want love,
I live a life of sad.
