"Tonight"

Visit "[Tonight](#)" on MotoLyrics.com

I've been watching you,
Watching me,
I've been thinking of you,
Thinking of me,
Feel the chemistry,
Take over me

I've been lonely,
You've been lonely too,
Both so empty,
Baby I need you

I know you want me,
I know you need me too,

And tonight's, the night,
Where we'll bring this love alive,
Tonight's, the right time,
Where we'll bring this love alive

Oh oh oh oh - Tonight, tonight
Oh oh oh oh - The time's right, right
Oh oh oh oh - Tonight, tonight
Oh oh oh oh - The time's right, right

Feel the body heat,
When you dance next to me,
Dance like no-one's watching

Move in closer, as we nearly kiss,
This night's only just started

(Dance Instrumental)

And tonight's, the night,
Where we'll bring this love alive,
Tonight's, the right time
Where we'll bring this love alive

Oh oh oh oh - Tonight, tonight
Oh oh oh oh - The time's right, right

Oh oh oh oh - Tonight, tonight
Oh oh oh oh - The time's right, right

Oh oh oh oh - Tonight, tonight
Oh oh oh oh - The time's right, right
Oh oh oh oh - Tonight, tonight
Oh oh oh oh - The time's right, right

I've been on my own,
For a length of time,
I am ready for this love to last

So let's dance and kiss our past away,
Let this song play on replay

Oh oh oh oh - Tonight, tonight
Oh oh oh oh - The time's right, right
Oh oh oh oh - Tonight, tonight
Oh oh oh oh - The time's right, right

Oh oh oh oh - (On replay) Tonight, tonight
Oh oh oh oh - The time's right, right
Oh oh oh oh - Tonight, tonight
Oh oh oh oh - The time's right, right
