

Beach Girl 5

"I Got"

Visit "[I Got](#)" on MotoLyrics.com

You loosing sleep you can't believe you feeling like this
I look so sweet you like my t-shirt it says "TRY THIS"
We at the beach you with your friends our eyes
connected
But imma give you that uh uh imma give you that quick
look away.
You wanna dress me up and take me where the rich do.
But I rather catch a flick and later hit the drive through.
Cuz you inspire me and I admire you I got you thinking
that
Boy you know I do.

Cause I got something that you've never seen
I got like a model in a magazine
I got you tripping on me this way
and if you play it right I'll be feeling the same
Cuz I got money money money money in my purse
I got a heart right here if it works
I got you tripping on the same thing
I got it I got it I got it baby

I like flowers boy you know I'm into candy
I'll write my cell phone down I know it'll come in handy
You'll be sittin baby wishing on a Saturday night
That you're with someone betta who knows how to treat
you right
The you'll remember that piece of paper that's from me
The one I folded and you stuffed inside your blue jeans
And then you'll call me up.
My cell phones blowing up
My date tonight you know i just stood him up.

Cause I got something that you've never seen
I got like a model in a magazine
I got you tripping on me this way
and if you play it right I'll be feeling the same
Cuz I got money money money money in my purse
I got a heart right here if it works
I got you tripping on the same thing
I got it I got it I got it baby

Male: I could see us in the future
I know its crazy but its true
your wearing white your hair is down and I'm just lookin
at you
like it's already framed inside a photograph.
These thoughts I'm havin I've never had them in the
past.
I wanna scream it to the world from every mountain
top.
I wanna love you girl. I swear I'll never let it stop.
Everywhere I look everything I see every place I go even
in my dreams.
I just wanna take you there with me
Number one in my heart thats where you be.

Cause I got something that you've never seen
I got like a model in a magazine
I go you tripping on me this way
and if you play it right I'll be feeling the same
Cuz I got money money money money in my purse
I got a heart right here if it works
I got you tripping on the same thing
I got it I got it I got it baby
