[Chorus:]

Crashing down in pain
One painful regret
Is wanting you more
Something I can get back
I'll pass though
All that we've been through
Served all my love to you
I realized, love don't go on forever

[Verse 1:]

Every bit of love I had
I gave it all to you
But you still remained careless
Never understood why
Why you could be so cruel
You told me that you loved me
But I'm not that kind of girl that you
Thought that you knew
And far from the girls you done been through

[Chorus:]

Crashing down in pain
One painful regret
Is wanting you more
Something I can get back
I'll pass though
All that we've been through
Served all my love to you
I realized, love don't go on forever
[x2]

[Verse 2:]

The truth has finally came out
With the stress and pain I gained
Everything is different now
Everything has changed but
My heart wont feel the same
Cause we sit and played the blame game
But I'm not that kind of girl that you
Thought that you knew

Hope you had fun
Cause this chapter is now down

[Chorus:]
Crashing down in pain
One painful regret
Is wanting you more
Something I can get back
I'll pass though
All that we've been through
Served all my love to you
I realized, love don't go on forever
