Baby why ?

I heard you one thousand times " I love you "
I hurt anyone who stay with me
I hurt them
I heard how you grow my higher in my world
I heard your heart beat far away from me
You must go

I don't wanna be with you again
I don't wanna see you stay away, away, away, away,
away
Don't even try again

To make me high
Why do you try
To make me high
And keep me close, baby why ?
Tell me why should I waste my time
To make you mine
Why should I have to wait ?
(Baby why ?)

Make me high
Why do you try
To make me high
And keep me close, baby why ?
Tell me why should I waste my time
To make you mine
Why should I have to wait ?
(Baby why ?)

You must go

I heard you one thousand times " I love you "
I heard your heart beat far away from me
You must go

I don't wanna be with you again
I don't wanna see you stay away, away, away, away,
away

Don't even try again
To make high
Why do you try
To make me high
And keep me close, baby why ?
Tell me why should I waste my time
To make you mine
Why should I have to wait ?
(Baby why ?)

Make me high !
Why do you try ?
Tell me why should I waste my time ?
To make you mine
Why should I have to wait ?
(Baby why ?)

Make me high !
