You locked me up  
You tied me down  
Like a dog, kept me tight on a leash  
You held me back  
You messed me round  
But a caged bird can't sing less she's free

Foot to the floor  
At the time scream for more  
Lose the brake  
I think it's time to escape

I'm gonna drive you wild  
Live at the speed of light  
'Cause you can't catch me  
This is my dream  
I'm goin' faster now  
There are no boundaries  
I will ride this road ahead  
'Cause you lied and you lied  
And the truth I hope will drive, drive you wild!

You can't get back  
What you have lost  
I found my freedom and I cast off these chains  
The air is sweet  
And it don't cost  
So watch me fly and hear the sound of my name

I'm wide awake  
I finally made my escape

Live at the speed of light  
'Cause you can't catch me  
This is my dream  
I'm goin' faster now  
There are no boundaries  
I will ride this road ahead  
'Cause you lied and you lied  
And the truth I hope will drive you wild!

Why do you wish me well  
When you hurt me so  
When we went out'  
Tell me  
I think you only want  
What you can't have, can't have  
Watch me live life  
I'm unlike it  
I'm alive  
Live life  
I'm unlike it  
I'm alive

I'm gonna drive you wild  
Live at the speed of light  
'Cause you can't catch me  
This is my dream  
I'm goin' faster now  
There are no boundaries  
I will ride this road ahead  
I'm gonna drive you wild!  
Gonna drive you wild!  
Gonna drive you wild!  
I'm goin' faster now  
There are no boundaries  
I will ride this road ahead  
'Cause you lied and you lied  
And the truth I hope will drive  
I'm gonna drive you wild!
