I might smile or I might cry  
Might tell the truth or I might lie  
Lot of what I do, don't know quite why  
I'm just trying to move along my lifelines  
And make me greater  
That's me, just a little unstable

I'm usually sane  
Normal on every way  
But someone flicked the switch  
Now I've got this nervous twitch  
I'm shakin' like a leaf  
You have infected me  
No inhibitions  
They're all gone  
Split personality  
It won't be long  
Before I lose my mind  
I'm unstable

Who ooh ohh  
I'm so crazy  
Who ooh ooh  
'Bout ya lately  
Irony I know  
I got it to go  
Who ooh ooh  
I'm unstable

I used to be real calm  
Like a ballerina girl  
Straight A student chick  
Until you came and rocked my world  
I'm certified for sure  
You're the drug  
I'm craving more  
No intermission  
This is the show  
If you figure me out  
Let me know  
Before I lose my mind

I'm unstable

Who ooh ohh  
I'm so crazy  
Who ooh ooh  
'Bout ya lately  
Ironic I know  
I got it to go  
Who ooh ooh  
I'm unstable

I guess I'm crazy  
A little unstable maybe  
S\*\*\* whatever God made me  
F\*\*\* what they say  
If you wanna go wild  
Go ahead, don't axe nobody, girl  
I got a split personality  
My sixth sense silently  
Seems to contradict my reality  
The twitches in my lip  
Keep reminding me that something ain't right  
But no matter we see monkeys tonight

No inhibitions  
They're all gone  
Split personality  
Won't be long  
Before I love my mind  
I'm unstable  
Who ooh ohh  
I'm so crazy  
Who ooh ooh  
'Bout ya lately  
Ironic I know  
I got it to go  
Who ooh ooh  
I'm unstable
