[Verse 1]

It's the way that you moved me  
And the way that you looked at me,  
Something about your hair and the way you stare  
Feels like I am walking on air

[Ref]

And all I wanna do  
Is I just wanna be with you

[Chorus]

I wanna wake up every moment,  
Wanna wake up every time,  
I wanna wake up every second  
Right here with you straight in your arms

[Verse 2]

Ten feet underneath the sheets  
And my lips are walking on your hips,  
Your head in my chest, I am defenseless,  
When I'm with you, I know that I'm home

[Repeat Ref]

[Repeat Chorus]

[Bridge]

Even as we fall asleep  
And you feel the one aching  
You will still be in my dreams  
'Til the morning comes

[Repeat Chorus 2x]

[Coda]

Right by your side... (I wanna wake up...)(7x)
