"Go"

Go lovely go far away I've set you free
'cause i know that we belong
Held in arms of the sea
And there's other things are all
On your mind through the day
And it's understood to me
We belong in freedoms way

Well i heard the daylights long
And the seas are slight but the breeze is strong
Hope fills my sails and and i'm gone
But man it feels like home

And i know this is all that i've dreamed of
'cause i feel like living when the life comes back to me
The sun shines on my face and i feel hope

Well i know the blood runs strong
In your heart but it beats harder for the life in you to
grow
And you smile 'cause you know this is where we belong
