"At War With Butterflies"

Visit "[At War With Butterflies](#)" on MotoLyrics.com

Imagine everything
these people only bring you down
to everyone its time to live, it's time to were this crown

Shut up this hole i see the surface
and you never seem to mind
when your half way to your home these day's

Can you feel it, Can you feel it
when your at war with butterflies
when you second your emotion
your alive with these arms tied down, Arms tied down

For everytime that i would see this end of summer
forever now it seems, two worlds one day
Belived the secrets i was told, there are many reasons
why
We all should know

Can you feel it, Can you feel it
when your at war with butterflies
when you second your emotion
your alive with these arms tied down, Arms tied
downx2

You'd you walk to many time x8

Can you feel it, Can you feel it
when your at war with butterflies
when you second your emotion
your alive with these arms tied down, Arms tied down
